

Press Release

SPIE Switzerland achieves prestigious Cisco DevNet specialization

Bern, 21 November 2023 – SPIE Switzerland, a subsidiary of the SPIE Group, the independent European leader in multi-technical services in the areas of energy and communications, announces that it has been awarded the renowned Cisco DevNet Specialization. This achievement further cements SPIE Switzerland's position as a trailblazer in the Swiss IT landscape.

SPIE Switzerland, announces that it has been awarded the renowned Cisco DevNet Specialization. This achievement further cements SPIE Switzerland's position as a trailblazer in the Swiss IT landscape.

The Cisco DevNet Specialization is recognized globally and with this certification, SPIE Switzerland not only reaffirms its proficiency but also stands out as a frontrunner in the realm of network technology. It underscores the team's expertise in Cisco platforms, emphasizing its capabilities in network automation, application development, and infrastructure management.

Eight consultants of SPIE ICS, the digital services operational division of SPIE, have achieved Cisco DevNet certifications that ranges from Associate, Specialist, Professional to Expert – the highest specialization possible. Of the 50 DevNet Experts worldwide, one of the two certified in Switzerland is employed by SPIE.

This achievement provides SPIE ICS a competitive advantage in the Swiss ICT market and ensures an accelerated development and deployment of its clients' IT projects.

Christophe Francey, CTO at SPIE ICS in Switzerland, commented on the accomplishment, "This specialization reflects our commitment to providing our clients with the highest valuable solution. Our stakeholders can now be even more confident in our ability to deliver end-to-end solutions that not only meet but exceed expectations."

Thanks to the Cisco DevNet specialization, SPIE provides its clients tangible benefits that directly impact business' efficiency, innovation, and bottom line. It empowers SPIE not only to create custom applications, tailored to client's specific needs, but also to automate network and accelerates deployment times. Companies' networks and applications can be designed to scale easily with their business growth. With Cisco DevNet expertise, SPIE can offer proactive network monitoring and support to optimize clients' network operations and reduce unnecessary expenditure.

About SPIE Switzerland

Subsidiary of the SPIE group, the independent European leader in multi-technical services in the areas of energy and communications, SPIE Switzerland is a provider of ICT, multi-technical and facility services.

Employing about 560 people from 8 locations across Switzerland, the divisions SPIE ICS (Information & Communication Services), SPIE MTS (Multi-Technical Services) and SPIE IFS (Integral Facility Services) provide solutions in the areas of 'Smart Cities', 'Energy', 'e-efficient buildings' and 'Industry Services'. Through the SPIE Group and the Global Workspace Alliance, SPIE Switzerland benefits from a global network to provide a full range of services, even to major international clients. These services are enhanced by an efficient service centre with 24/7 availability in four languages.

With more than 48,000 employees and a strong local presence, SPIE achieved in 2022 consolidated revenues of €8.1 billion and consolidated EBITA of €511 million.
